

METHODOLOGY FOR APPLICATION OF MYK ASOLIN W2S

Description:

MYK ASOLIN W2S is a ready to use water diluted solution of alkali alkyl siliconate designed to impart water repellency to a wide range of surfaces.

Packing: 5, 20 and 200 Kg pack

Methodology for Application:

Step-1:- Application of MYK ASOLIN W2S

Pre-moistened the surface before doing the application.

Application of MYK ASOLIN W2S:

MYK Asolin W2S can be applied by brush or spray on the well prepared surface.

Application Areas:

Suitable for common types of building, clinked facades stone, Light concrete, for bricks, Sand stone, Lime stone and Ceramics..

Coverage:

2 m² per 1 kg

Protection:

MYK ASOLIN W2S should be applied with gloves and care should be taken to see that it doesn't fall on screen or eyes. Splashes on the eyes have to be immediately washed with plenty of water and medical advice to be taken.

Note: - All coverages mentioned above are theoretical and under laboratory conditions, MYK Schomburg strongly recommends site trials to ascertain actual coverages.
